Re: Extension Granted for Required Reclamation, Burningham Enterprises, Mammoth Ridge #1 Mine, S/017/0048, Garfield County, Utah

Dear Mr. Burningham:

The Division of Oil, Gas and Mining approves your request received by e mail May 30, 2012, for an extension of the deadline by which you are required to complete reclamation at the referenced mine. In accordance with administrative rule R647-3-113.5, the Division of Oil, Gas and Mining (Division) requires reclamation of the referenced mine site. The mineral lease was canceled for non-payment, so you no longer have right of entry, except to perform reclamation activities. In addition, Division inspections and information from the Trust Lands Administration show the site has been inactive for over five years.

Reclamation must be completed by September 30, 2012. **Failure to complete reclamation within this time period is likely to result in issuance of a cessation order and an associated fine.**

Thank you for your cooperation. Please contact Peter Brinton at 801-538-5258 or me at 801-538-5261 if you have any questions about these requirements.

Sincerely,

Paul B. Baker
Minerals Program Manager
